

BROOKLYN RESOURCE RECOVERY
5811 Preston Court
Brooklyn, NY 11234

BRR is required by 40 CFR Sections 82 & 761, among others, to have all scrap suppliers certify the following:

Term. The term of this agreement shall be for a period of three (3) years, beginning on the date of this Agreement, and shall automatically renew from year to year unless terminated by the Supplier in writing. Receiver shall have the right, at any time, to cancel this Agreement without prior notice to Supplier.

1. Refrigerants

Supplier hereby certifies that all appliances, including without limitation, motor vehicle air conditioning units, other air conditioners and refrigerators, delivered to BRR, are free of any and all "refrigerants" and any substitutes (including but not limited to chlorofluorocarbons (CFC's) and hydro chlorofluorocarbons (HCFC's) as defined in Section 608 of the Clean Air Act, its amendments and 40 CFR Part 82) and that all such refrigerants were removed or recovered in accordance with the requirements of 40 CFR 82.156 (g) or (h) prior to the delivery of the appliances to BRR. Supplier agrees to defend, indemnify and hold BRR harmless from any claim, penalty, fine, fee, cost or other liability (including reasonable attorney's fees at trial and appeal) resulting in whole or part from supplier's breach of this certification.

2. PCB's

The federal Toxic Substances Control Act "TSCA", 15 U.S.C. 2601 et seq. and its implementing regulations at 40 CFR Part 761. governs the removal and disposal of polychlorinated biphenyls ("PCBs"). Supplier certifies that all PCB capacitors or any other PCB containing equipment shall be removed from all materials by supplier and disposed of by supplier in accordance with all applicable laws prior to delivery to BRR.

3. Mercury Switches

New York State's Environmental Conservation Law 27-2105(1), governs the removal of mercury-containing devices/switches from vehicles and/or other Materials. Supplier certifies that all mercury containing devices/switches shall be removed from vehicles or other Materials by Supplier and disposed of by Supplier in accordance with all existing laws and regulations prior to delivery to Receiver, regardless of whether Supplier delivers the vehicle or other Materials to Receiver prior to crushing, flattening, shredding or bailing of the vehicle of Materials.

4. Fluids

New York State's Environmental Conservation Law 27-2303 requires certain potential environmental contaminants be drained, deployed or removed from end of life vehicles prior to crushing. For all vehicles delivered to BRR, Supplier certifies that the following shall be removed from end-of-life vehicles prior to delivery to Receiver: (i) fluids including engine oil, transmission fluid, transaxle fluid, front and rear axle fluid, brake fluid, power steering fluid, coolant, and fuel; (ii) lead acid batteries; (iii) SMM all PCB capacitors, (iv) mercury switches or other mercury containing devices; (v) refrigerants used in automobile air conditioning system; and (vi) air bags are deployed or canisters are removed.
